About Strive

Strive is a collaborative group of Child Care & Early Years Practitioners who support learning and development in order to enhance quality practice.

Since 2014, Strive has been meeting to discuss and consider how to enhance a collaborative approach to quality child care and professional learning across all early years and child care programs. Our community is interested in a process that supports **reflection** and **sustainable evolution** rather than a prescribed method to measure.

Vision

We are a community that works collaboratively to promote and build our professional capacity to provide high quality early years, school age, and family support programs and services.

Purpose

To identify & establish linkages within the Child Care and Early Years community that support and build upon the expertise of Early Years Practitioners and enhance the quality of the services they provide.

Objective

To provide continuous, accessible professional learning opportunities and resources for early years professionals as a means to learn through collaborative inquiry, and to reflect on practice.
