

CHAPTER STUDY: ILLUMINATING CARE

PEDAGOGICAL FOCUS: BELONGING, EXPRESSION, WELL-BEING

Facilitated By: The Strive Team

Carol Garbodden Murray's *illuminating Care: Pedagogy of Care* was distributed to organizations in London/Middlesex and Elgin to follow-up work started at Fall 2023 System Wide Professional Learning Day: *The Courage to Care*. Check with your leadership teams for access to the center's copy and join us in diving deeper into the *Second Lamp of Care: Care is a Right*.

Thinking with Murray's research and perspective: How do we prioritize care as a right? Not only for the children we work with but for ourselves so that we can be present in giving care? How can we advocate for care as a right within a compliance-based practice?
