

# THE POWER OF PLAY

PEDAGOGICAL FOCUS: BELONGING, ENGAGEMENT, EXPRESSION, WELL-BEING

**Facilitated By:**  
**Pierre Harrison, EAO/OCT**

This half-day workshop will take us on a journey which explores the importance of play in laying down a solid foundation for building a fulfilling life. Topics explored will include the importance of play, the role of the education professional in making the child's learning visible, the exploration of risk, play in nature and the consequences of play deprivation. Participants will play and create with a variety of loose parts and tools, diving into the joy of self-directed, spontaneous play.

Pierre facilitates Adventure PlayDays in school and community settings across Canada. He keynotes nationally and internationally on play, inquiry, and learning at conferences, as well as facilitates training workshops for adults across the country and in Europe. Pierre lives in an off-grid, straw bale house in the beautiful forest of Northern Ontario with his partner Susanne and their 14 year old son Tom.

**Please Note: Lunch will be provided.**
